The BEST Roof
You'll Ever Own!

Featuring a Lifetime Residential Warranty

Lifetime Warranty

We are so confident with our systems that every residential roof comes with a 100% lifetime material warranty, at no charge to you. Your roof is covered, for as long as you own your home.

Reliable

All accessories, flashings, IB vents, roofing membrane, and even the fasteners that attach the roof, are covered under the same lifetime warranty for your home.

Fire Resistant

The IB Roof Systems membrane has a Class "A" rating for flame resistance. Unlike traditional roofing materials, the IB membrane will resist flames rather than fuel them.

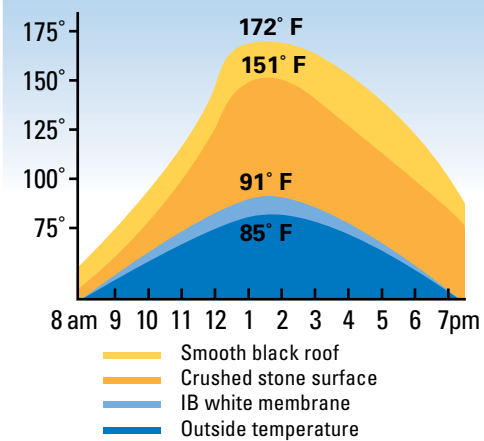

Quality Assurance

IB Roof Systems authorizes each contractor that installs our roof systems. We want you to feel assured that you are getting the best roof system available for your home and family.

Ponding Water

IB Roofs are uniquely formulated to withstand ponding water. Moisture will not pass through the IB membrane. Ponding water will not affect the performance or warranty of IB Roof Systems single-ply membranes.

Heat Gain Comparison Chart

Energy Savings

A white IB membrane can reduce your energy consumption and your rising electric bills. By reflecting up to 90% of the heat that normally enters a home through the roof, an IB roof will lower your home's heat gain, and it might very well pay for itself.

A Green Choice

IB understands the need to utilize natural resources efficiently. This is why IB membranes are designed to be 100% recyclable. In addition, 90% of systems can be installed over existing rooftops eliminating the need for messy tear-offs. Reducing landfill usage and preserving our natural resources. IB works with the environment, not against it.

Our Commitment to You

Our systems are developed with cutting edge technologies that have been performing for over 30 years and have become a standard in the industry. Our commitment to you is that we will never lower our standards, our systems will continue to outperform all other flat roofing choices and will prove to be the best roof you'll ever own.

Larry Stanley – President, IB Roof Systems
